Cycle safety

Only riders with completely roadworthy machines are permitted to participate in Association outings. Whether your machine is new or old, [?] parts are operating correctly - particularly the brakes ! [??]
as we have two of the best bicycle mechanics here to give you advice - John Oliver and Wayne Lally.

King's Park
coming up in late September

WANTED

A 17 year old girl has a tandem. As she is blind she would like someone to pedal the front half of the machine and steer.
67 years of cycling Barry Flint, now 84, still manages 10-20 miles a day.
