

CTA 2019 AGM Rides Coordinators Report – Liz Marshall

I had to finish this report by the 5th of January, but unfortunately my brain is not working all that well by minus 10 degrees. I am in the Swiss Alps trying to go on my cross country skis through the Rhone valley, but here we go, I'll try anyway:

Not much has really changed from my report last year. The Sunday, Wednesday and Thursday night rides were attended by many members by nice weather and not so many members by cold, hot or rainy weather. I do believe that the recent survey has confirmed, that the main drawcard to our club are the tours, may they be small, long, close by or far away. I have myself attended many Sunday, Wednesday and one Thursday night ride and I thoroughly enjoyed all of them and I believe everyone else in the group, no matter how small the group was, has enjoyed them. I can't see much change for the future of the one day rides, lets just keep having fun and enjoy each others company!

Liz Marshall
